

Air1 is the ONLY radio station I can listen to in my car or at home that I don't have to worry about what my 5 year old is going to pick up and say. Air1 has a positive message that is uplifting and AGAIN, SAFE! Air1 has NO commercials which means music the whole time I'm in the car! I think you would be my entire community a injustice if you took Air1 off the radio. I think you would be doing the entire Christian community a injustice. In a world filled with profanity and perverted innuendoes on TV and radio I find true comfort in Air1
